EDUCATION

BE, Information Technology, Army Institute of Technology | June 2024
SGPA: 9.52

12th, Kendriya Vidyalaya CMM Jabalpur MP | May 2019
Percentage: 93

10th, Kendriya Vidyalaya Narangi Guwahati Assam | June 2017
CGPA: 9.6

SKILLS

Languages   C++, C, Java, Python, HTML, CSS, Javascript.
Frameworks   React, Redux, Node.js, Express, Django.
Courses   DSA, OOP, ML.

Soft Skills   Time Management, Teamwork, Communication, Problem Solving, Leadership, Accountability.

PROJECTS

Spam SMS Classification   GitHub

- Classify whether the SMS is spam or ham with the help of various classifiers such as NaiveBayes, RandomForest, KNeighbours, SVC. NaiveBayes gives 97.40 accuracy on dataset collected from kaggle.
- Used: pickle, pandas, seaborn, .

Credit Card Fraud Detection   GitHub

- Predict fraudulent credit card transactions with the help of Logistic Regression model. Collected data from Kaggle and our model gives 93 accuracy.
- Used: numpy, pandas, matplotlib, seaborn.

Diabetes Prediction   GitHub

- Predict whether the person is having diabetes or not using SVC which gives 77 accuracy on dataset collected from Kaggle.
- Used: numpy, pandas.

HONORS AND ACHIEVEMENTS

- Coding 3 star Codechef, 1000+rating Codeforce, 5 star HackerRank, 1000+ Problems Solved.
- Participate in College-level Hackathons.
- Participate in Various Coding challenges.
